Think Outside The Box

This Travel Website package is a self managed website option. Content updates and additional pages can be added by yourself as often as you require. Additional websites can be added to the hosting account at the annual domain name registration fee only (R150.00)

We do not add a mark up on hosting services, you will be billed directly by the services provider, we do however endorse the quality services of VodaHost.

This Quote is valid for 6 Months
